Road Roller

## RS7120H

 Operating weight (kg) Rated power (kW)

Field of application:

Utilities

Heavy infrastructure

[Request a Quote](#)[Features](#)[Technical Parameter](#)[Gallery](#)[Technology Support](#)

## Features

### Engine system

Weichai engine,high-pressure common rail, supercharged intercooling, three-stage fuel filtration, str efficient.

### Advanced vibration system

Vibration wheel adopts through-axis design, amplitude is stable and consistent,good compaction pe

### Robust structures

- 1.Front and rear frame articulated connection, high reliability, small turning radius;
- 2.Internationally famous brand drive axle, large driving force, smooth running, superior performance

### Comfortable cabin

- 1.Newly upgraded H series cab with beautiful appearance, wide view and comfortable driving experi
- 2.The rocker switch has a variety of functions and a reasonable layout;
- 3.New instrument panel, human-machine interaction interface is vivid, the whole machine status info

### Easy maintenance

- 1.Engine filter is centrally located on one side for easy maintenance;

## Technical Parameter

Operating weight (kg)	12000
Rated power (kW)	92
Compaction width (mm)	2130
Overall dimension(L×W×H)(mm)	5947×2316×3170
Engine model	WP6G125E202
Nominal amplitude(mm)	1.9/0.95
Excitation force (kN)	270/163
Steering angle (°)	35
Min. turing radius (mm)	6210
Fuel tank capacity (L)	270
