Features

E6210F is the core product developed by SDLG after fully investigating the Chinese market. The product is a heavy working device, optimized matching power hydraulic system, suitable for a variety of harsh conditions.

- The engine has the advantages of environmental protection, low-speed engine, high efficiency, low fuel consumption.
- Double pump constant power negative flow hydraulic system, automatic sensing control.
- The reinforced lower frame with lengthened crawler and widened chassis has good trafficability and stability.
- Equipped with EECU, VECU, IECU, keypad and GPS electronic control system.
- The cab is spacious and has good sound insulation effect. It is equipped with three sunshade nets. A vibration absorber is used to reduce vibration and impact.
- It can be equipped with various working devices and accessories such as crushing hammer.

Technical Parameter

Operating Weight(kg)

21250

Overall height(mm)	2940
Overall length(mm)	9700
Engine model	SDLG-BF6M2012
Emission Standard	China Phase III
Max. excavation force(kN)	147.1
Swing speed(r/min)	12.1
Traveling speed(km/h)	3.5/5.7
Max. digging radius(mm)	9940
Max. digging depth(mm)	6730
Max. digging height(mm)	9450
Fuel tank capacity(L)	350
